Because you requested it, we've restored the original 'hook' latch to our model KB400 folding music stand. This superior design is more stable and easier to set up.

The KB400 is now available in either chrome or in a durable, black-paint finish.

It's built with the same care we've put into every Hamilton music stand since 1883.

That's why so many musicians choose our stands. See your dealer today.
